Public Hearing - Road Renaming for Prison Camp Road: Leroy Buff presented a petition from John Anderson to change Prison Camp Road to Roper Drive.

Chairman Cochrane opened the public hearing on the road renaming for Prison Camp Road.

John Anderson, applicant, stated that he was here to answer any questions.

Being no additional speakers, Chairman Cochrane declared the public hearing closed.

UPON MOTION by Commissioner Craig, the Board voted unanimously to approve the renaming of Prison Camp Road to Roper Drive.

Regional Travel Model: Rebecca Yarbrough, with Centralina Council of Government, gave a presentation on the Regional Travel Model. The Charlotte metropolitan region includes four Metropolitan Planning Organizations: Mecklenburg-Union MPO, Gaston Urban Area MPO, Cabarrus-Rowan MPO, and the Rock Hill-Fort Mill Area Transportation Study. There are also two Rural Planning Organizations, the Lake Norman RPO and Rocky River RPO.

These agencies, along with the two states' departments of transportation, NCDOT, and SCDOT, are collaborating to develop a Regional Travel Demand Model. This Travel Demand Model is a critical element of our region's response to the anticipated designation by the US EPA of our region as an air quality non-attainment area in April of 2004. Once designated as non-attainment, the region must prepare and submit a transportation conformity plan, demonstrating that the region's transportation system (both existing and proposed for the future) does not worsen air quality. Failure to submit such a plan results in *transportation non-conformity*, and entails significant economic penalties in the form of the withholding of federal transportation dollars to the region. The attached map shows the current proposed non-attainment area.

Much work has already gone into the development of the modeling effort. Extensive data has been collected and verified on current land use, employment, and population distribution. Additional studies have been done to determine how much traffic passes through the region as opposed to staying within the region, and how likely people are to drive, carpool, walk, etc. to get to their destinations. An expert panel has worked on credible growth projections.

The expert panels' input was converted into draft population projections, based on the total developable capacity for each part of the county.

The role of local elected officials is equally important. In order for the projections of population and employment growth to have credibility with federal agencies reviewing the conformity plan, they must have the concurrence of local elected officials.

Ms. Yarbrough asked for the Board to review the projections and present any significant changes by early February. She stated that she will be back before the Board in April or May to request the Board's concurrence in the projections, so that the conformity planning will pass Federal requirements.

Chairman Cochrane called for a brief recess.
Chairman Cochrane called the meeting back to order.

CATS Presentation: Larry Kopf, with CATS, presented information concerning CATS service to Lincoln County. He presented the following estimates for the cost of the service from NC 16 and NC 73 and from Lincolnton.

Total Operating Cost	With Four Trips	With Six Trips
Service From NC16 and NC73	\$ 81,144	\$120,557
Service From Lincolnton	\$106,260	\$159,390

Lincoln County Cost (50% of total)	With Four Trips	With Six Trips
Service From NC16 and NC73	\$ 40,572	\$ 60,278
Service From Lincolnton	\$ 53,130	\$ 79,695

CATS projects a low of 600 riders per month and a high of 2,000 riders per month. The medium projection was for 1,100 riders per month, or about fifty-five riders per day.

The Board discussed having a public hearing to see how citizens feel about this service. They also discussed asking the City to contribute \$13,000 for the service to come to Lincolnton.

The Board deferred this item to the 1st meeting in April.

Precinct Accessibility Update: Judy Caudill presented information to the Board concerning precinct accessibility. She stated that there is a major problem at the Library. The ramp is more than 30' long with no resting spot. At the Buffalo Shoals Clubhouse, the sidewalk is not wide enough and it has a gravel parking lot. Howard's Creek also has a gravel lot. Out of the 29 places used for voting, 15 are public buildings and 14 are not. Ms. Caudill has applied for grant money, but may request money at a later date to get the precincts accessible.

Request from Historic Properties Commission: Tommy Howard presented a request from the Historic Properties Commission to purchase additional acreage at Madison Furnace. The Commission would like to purchase four additional acres at a cost of \$8,000 per acre.

Chairman Cochrane asked for this item to be put on the next agenda, since there was nothing in the board packet concerning this request.

Update from Public Works: Steve Gilbert gave an update on the emergency water connection with High Shoals. High Shoals received a grant to pay for an emergency water connection with the Lincoln County water system. County staff is reviewing an agreement High Shoals presented and will bring it to the Board for final approval.

Steve Gilbert also gave an update on the Water Treatment Plan Expansion Project. He stated that plans have been in review in Raleigh for several months for a 3.0 MGD expansion to the Lincoln County Water Treatment Plant. The County had requested a waiver of the requirement that an Environmental Assessment be performed for the expansion, but this request has been denied. Section 15A of the NC Administrative Code, Paragraph .0408(2)b(i) requires an EA for any expansion of a treatment plant over 1.0 MGD, and the State will not allow this project to proceed with expansion without an EA being completed, which can take nearly a year.

A recent inspection by the State has indicated the need for new media to be added to the filters at the water plant, due to loss of efficiency in the existing media. In a meeting with the permitting officials on February 17, options were discussed to get the filters upgraded. As a result of this meeting, the State is going to allow the county to proceed with part of the project as follows:

- 1) We will be allowed to construct two new filters and rehab existing filters. This will provide redundancy in the filtration system;
- 2) We will be allowed to proceed with installation of the MIOX disinfection system that will replace the existing chlorination system. This will alleviate the safety concerns we have had with the handling of chlorine;
- 3) We will not be allowed to increase capacities of flocculation and flash mixing chambers or settling tube chambers, nor will we be allowed to add raw water pumps to increase plant capacity;
- 4) We will not be allowed to request a loan from the State Revolving Fund for the upgrade.

The reason we cannot do item 4 is that the State requires an EA be completed any time an SRF loan is requested.

Mr. Gilbert presented the following estimate for construction of the filters and the disinfection system now and delaying the expansion work until the environmental work is completed.

Projected Project Schedule

State Permitting & Approvals	45-Days
Bidding and Contract Award	90-Days
Construction	335-Days

The estimate of construction cost to add the new filters, upgrade the existing filters, and provide the new disinfection system is estimated at \$1,735,000.

UPON MOTION by Commissioner Anderson, the Board voted unanimously to do the filter work and move ahead with the Environmental Assessment.

Nursing and Adult Care Home Ordinance: Chairman Cochrane stated that he researched and found his notes from the meeting with Jeff Taylor, county staff, and Commissioner Craig. He stated that at the meeting it was discussed that the ordinance was questionable legally and would shut down smaller homes. He stated that in his notes, the closing sentence was to see if the Ordinance could be amended to make it applicable for 7 or more residents. He stated that he should have brought this back to the meeting in August. Chairman Cochrane apologized to the Board and citizens for not bringing it back before the Board.

Commissioner Mitchem presented information from State Statutes concerning adult care homes and group homes.

A MOTION by Commissioner Mitchem to table this Ordinance to the next meeting and have Jeff Taylor come back with a good recommendation concerning this information from the General Statutes.

Commissioner Anderson stated that at the last meeting, it was his understanding that local government does not have the authority to have this Ordinance, and the Ordinance is unenforceable at the local level.

Vote: **1 – 4 AYES: Mitchem**
NOES: Cochrane, Anderson, Craig, Funderburk

A MOTION by Commissioner Craig the repeal the Nursing and Adult Care Home Ordinance, effective immediately.

**Vote: 4 – 1 AYES: Craig, Cochrane, Anderson, Funderburk
NOES: Mitchem**

Appointments: Commissioner Craig presented the following recommendations:

CEDS

- Doug Phillips
- Rosalind Welder
- Barry Matherly

Future Forward

- Seth Haney

UPON MOTION by Commissioner Craig, the Board voted unanimously to appoint Doug Phillips, Rosalind Welder, and Barry Matherly to CEDS and Seth Haney to the Future Forward Board.

Other Business: Commissioner Funderburk reported on a meeting he had with officials from Solid Waste. He stated that the meeting was concerning out-of-county residents dumping at our convenience sites. The outcome of the meeting was that it is cheaper to handle the additional trash than to try and prevent it.

Chairman Cochrane informed the Board of an information session meeting on Monday, March 29 at 6:00 p.m. with Pathways concerning the Local Business Plan.

Chairman Cochrane presented the Board with information concerning facilitating school collaboration. He is going to get more information on this.

Chairman Cochrane asked Commissioner Anderson and Commissioner Craig to work with the Health Department concerning the lack of requirement to hook onto sewer with failures in septic systems and come back to the Board with a recommendation.

Chairman Cochrane stated that he met with Jerry Park, Jim Austin, and Henry Fogle to discuss the Sedimentation and Erosion Control Ordinance. He stated that it was an excellent meeting and it was left that the Homebuilders Association would like to begin educating people, instead of implementing this ordinance.

Adjourn: **UPON MOTION** by Commissioner Craig, the Board voted unanimously to adjourn.
