### ESTIMATE

Services	qty	unit price	amount
Tree Health/Safety Assessment at the Old Courthouse (1 Court Square)	1.0	\$0.00	\$0.00
Our arborist performed a visual inspection of the foliage, trunk, and stems of (16) trees for evidence of disease, insect and structural damage.			
Of the trees examined we noted damage on (3) trees.			
(1) Large Elm tree with Wood Rot, stress cracks and root damage (40% or less health)			
(1) Smaller Elm tree with Wood Rot (50% or health)			
(1) Dogwood tree with Powery Mildew and hollow spots of the trunk (50% or less health).			

Assessment: Unfortunately, due to the poor the health of the trees and upcoming installation of new walkways that will cause additional stress on the trees it is best to remove these (3) trees

Recommended course of action:  
Remove and dispose of (3) trees to prevent property damage and/or personal injury from falling trees or limbs

Please let me know if you have any questions or concerns

Thank you

Chris Clarks  
ISA Certified Master Arborist #10911A  
Owner Clarks Tree Express

Services subtotal: \$0.00
