The following information is for use by the Lincoln County Board of Commissioners and Planning Board at their joint meeting/public hearing on August 1, 2011.

REQUEST

The applicant is requesting a conditional use permit to place a Class C (singlewide) manufactured home in the R-S (Residential Suburban) district. The proposed home is a 1991 model with a shingled roof and vinyl siding. A Class C manufactured home is a conditional use in the R-S district. The applicant is planning to live in this home while he builds an addition that would completely enclose it and look like a stick-built house (see applicant's letter).

SITE AREA AND DESCRIPTION

The proposed 4.5-acre site is located on the west side of Old Lincolnton-Crouse Road about 600 feet north of Hwy. 150 in Howards Creek Township. It is surrounded by property zoned R-S. Land uses in this area are primarily residential, including manufactured homes, with some business uses along Hwy. 150. The Lincoln County Land Use Plan designates this property as part of a Suburban Residential area, suitable for primarily single-family housing.

Dear Sir

I own a 1991 Oakwood mobile home , 15 x64, that has a shingle roof and vinyl siding. Last year I remodeled the inside and replaced everything with stick built home material. I have invested right at \$50,000 . There is no way I could get this investment back if I sold it. I am retired from Southern Railway, and my wife works in Charlotte. We purchased this land in hopes of her being closer to her job. We found four acres, Old Lincolnton Crouse Rd, that we hoped we could move our single wide on. We realize there are restrictions against moving a single wide on that property. My intentions are to move the single wide to the property, add an additional 16 x 64 feet making the total size 30 x 64. The following is what I propose to do with your permission:

1. Have the well and septic system completed
- 2.Move the mobile home 15 x 64 onto the land and set it to county code
- 3.Have water, power, and septic hooked up
- 4.I would like permission to live there while the building is completed. We would not have anywhere else to live.
- 5.Dig the footing completely around the mobile home. The footing would be 30 x 64
- 6.Have the foundation layed
- 7.Next the walls built completely around the mobile home, plus the 16 x 64 addition
8. Trust system installed
9. Metal roof and vinyl siding. At this time the mobile home would be completely enclosed looking like a stick built home.
10. Also I have pictures of two mobile homes that have been remodeled and look like stick built homes. I would like to bring these pictures along with some other pictures I would like to share with you.

Once I have your permission to do this, I will start as soon as possible and will complete the job by Thanksgiving 2011.

Thank you in advance,

George Tucker
