

## DID YOU KNOW...

LINCOLN COUNTY'S population is approximately **70,000**. The County's rural setting is ideal for raising a family. Consequently, our county is experiencing faster growth in the East Lincoln area around Lake Norman.

LINCOLN COUNTY operates a State Approved Subtitle D Landfill on approximately 300+ acres with a life expectancy of 25+ years. **46,691** tons of trash, and recycling was weighed into the landfill in 2010-2011, an average of **150** tons a day.

A total of **23,345** tons or **50%** of this waste is diverted from the MSW section of the County Landfill yearly.

### TONS

White Goods	<b>801</b>
Tires	<b>1,209</b>

Sunday 1:00 p.m. - 5:00 p.m.**

**LANDFILL HOURS**  
**Monday through Saturday**  
**8:30 a.m. - 4:30 p.m.**

## **LINCOLN COUNTY LANDFILL...**

**LINCOLN COUNTY** Landfill is divided into designated areas for materials that must be separated and/or recycled.

**Construction & Demolition Debris** area accepts, insulation materials, sheet rock, carpet, padding and concrete, painted wood, asphalt, bricks, rocks, gravel and glass. This material must be **inert** and should not cause ground water contamination. Our new C&D area has been in use since July 2003.

**White Goods** (appliances) are stored in a separate area. We remove the Freon and take White Goods to scrap mill.

**Tires** must be off the rims and are stored in a separate area. A private company is contracted to collect these tires whenever needed. Tires are placed in a monofil for future reuse as technology improves.

**Yard Waste** area accepts brush, limbs and pallets. This material is ground and stockpiled and whenever we accumulate a large amount, **we have Free Mulch Giveaways to all Lincoln County residents, until it is all gone.**

**Pallets** – now have a separate designated area they are ground in.

**Electronics** –The Landfill and all convenience sites now have containers for electronics. A private company collects these and then recycled.

## **WHAT'S NEW...**

**October 1 , 2009 – NC DENR banned 3 additional items from the Landfill: Pallets, Oil Filters, Plastics 1-7.** The followings items have already been banned: **Used Oil, Scrap Tires, Yard Trash, Lead Acid Batteries, ABC Beverage Containers, Antifreeze, Cans (steel & aluminum), Oyster Shells, & Whitegoods(appliances). No Liquids (ex. Paint)**

**January 1, 2011 – NC DENR banned electronics from the Landfill: Computers, Monitors and Televisions.**

**LINCOLN COUNTY** Solid Waste Dept. is continually looking for ways to better handle your trash and your recyclables. All ground water testing and leachate water testing is sampled regularly.

**Lincoln County** Solid Waste Dept. continues to increase its recycling program. Our Corrugated Cardboard program is still growing we collected **857** tons this year. We encourage businesses to separate their OCC and bring it to the landfill shop, **free of charge.** Our employees bale it. Residents may drop recycling off at any site. Used motor oil is also recycled at these sites. Antifreeze may be brought directly to the landfill shop.

**Our Solid Waste and Recycling Program** has expanded services to keep up with the growing population in Lincoln County. We are continually improving our handling and hauling strategies to better serve the residents of **Lincoln County.**
